BOOK SYNOPSIS

Angel Children is a careful presentation of Latter-day Saint doctrine concerning the status of children who pass away before being baptized. It is a compassionate book which brings comfort and consolation through increased understanding to those who read it. The author, Mary V Hill, lost her own child and shares the emotions she felt during that trying period. She deals with aspects of religious life when serious illness develops: effective prayer, faith and healing, priesthood administration, man's appointed time to die, and one's attitude towards death. The subject then shifts to the status of little children after their passing. She shows how little children need no baptism, that they are heirs of the Celestial Kingdom, and that they are redeemed from the temptations of Satan. Life in the Spirit World is discussed, then the resurrection and the status of children following the resurrection is considered. Another chapter is devoted to the status of retarded children here on earth. The author shows that the eternal spirit of a retarded child is not affected by the illness and discusses the eternal plan for such children. Great comfort is found in the final chapter: Overcoming the Challenge. The author tells of the necessity for having a positive attitude, mourning and being comforted, and ends with the reassurance that after much tribulation come the blessings. Angel Children is readable and inspirational. It is also a valuable collection of doctrinal materials on this important subject, including the scriptures and words of instruction and counsel by General Authorities of the Church of Jesus Christ of Latter-day Saints. Horizon Publishers is pleased to recommend it highly!
